

Expanded PTFE Gasket

Code: KXT1310

Description

Expanded PTFE Gasket is 100% PTFE, resistant to all corrosive media. Soft, twistable and bendable at will. Excellent anti-wriggle variation ability and cold current resistance, even in case of cross change of temperature and pressure, good sealing can be assured.

Item no.: KXT1310

Expanded PTFE Gasket

Item no.: KXT1310

- * 100% PTFE resistant to all corrosive media
- * Soft, twistable and bendable, used continue their service and keep its best performance
- * Excellent anti-wriggle variation ability and cold current resistance
- * Even in case of cross change of temperature and pressure, good sealing can be assured

Prime Features

- * Easily to be used and replaced
- * Wide service scope, it can replace any asbestos gasket, seal-armoured gasket, metallic gaskets, etc
- * Diverse pipelines enameled products, glass, rubber products, plastic, non-rusting graphite lining tower, heat-exchanger
- * Great interchangeability
- * Easy to store and purchase

Application

Chemical manufacturing / Food equipment / Pharmaceutical plants / Petrochemical / Steel manufacturing / Distilling / Food and beverage / Pulp and paper processing / Power generation

Specification

Property	Units	ASTM Method	Typical Values
Compressibility	%	F-36	68
Recovery	%	F-36	12
Seal ability	MI/hr	F-37-B	0.00(Fuel A)/0.02(Nitrogen)
Creep Relaxation	%	F-38	32%@212oF/16%@73oF
Temperature Limit	oF		-450 to +600
Pressure Limit			Full vacuum to 3000
